Instructions: Please fill in **all** blanks with correct course numbers and grades. For courses taken more than one time, please record all grades received in the appropriate blanks. If you are currently taking the course or planning to take the course during your graduating term, please indicate with either “N” for Present Schedule (this term), or “L” for Final Schedule (next term, if applicable). Your “N” or “L” indicated courses must be the same as the courses recorded under sections 16& 17 of your degree petition.

***Note on Language Requirements**

Students must complete the language requirement in a single language. The Institute humanities requirement is fulfilled by ENGL 1101, 1102, Language I, Language II. Students that are certified professionally competent in a language other than English and not required to take 12 credits of language must complete 6 credits of Institute-approved humanities coursework and 6 credits of free electives. Social science requirements are fulfilled by Institute-approved country/regional elective courses, global economics elective courses, international relations elective courses, and United States and Georgia history/constitution courses.

****Note on Social Sciences**

The International Relations, Country/Regional, and Global Economics courses should be selected so that they also meet the 9 hour social science requirement.

*****Note on Free Electives**

The number of free electives for students on the International Plan will be highly variable depending on how many of the International Plan electives met social science requirements and whether four semesters of language were taken. This checklist comprises 101 credit hours *excluding* the twelve hours of foreign language and 9 hours of social science (assuming that International Plan electives met the social science requirements). An additional 18 hours are needed for the degree. If four semesters of language are taken, then the first six hours are used to complete the Institute’s humanities requirement, and the remaining six may be counted as free electives. An additional six hours of free electives are required. If only three semesters of foreign language are taken, then only the last three count as free electives and nine hours of free electives are required. If only two semesters are taken, then twelve hours of free electives are necessary.

The number of free elective hours needed may be reduced if the International plan electives do not meet the social science requirements. Essentially the International plan electives substitute one-to-one for free electives in this case.

Chemistry Electives

CHEM 3482, 4311, 4341, 4401, 4452, 4511, 4512, 4521, 4581, 4582,4601, 4740, 4760, 4765, 4775, 4776, 4803, 4804 (Note CHEM 3511 is not allowed with CHEM 4511 or 4512)

Technical Electives

The Technical Elective Requirement may be fulfilled by course work in Science, Engineering, and Computing at the 3000 level or higher or MATH 2403.
