CHEM 1211K Syllabus

Spring 2019

CHEM 1211K, Section B (4 credit hours)

Lecture: MWF 11:15—12:05am, ES&T L1-205
Laboratory: Once weekly, various times (2 hours and 40 minutes), Clough 5th floor
Recitation: Once weekly, various times (50 minutes), various locations

General Information

Description
This course is the first of a two-semester sequence that introduces the foundational concepts of chemistry. General topics covered include stoichiometry, quantum mechanics, chemical bonding, thermodynamics, and the behavior of gases.

Pre- &/or Co-Requisites
There are no prerequisites for this course.

Course Goals and Learning Outcomes

• Identify steps in the scientific method.
• Apply concepts of measurement and significant figures to laboratory practices and chemical problems.
• Correlate position on the periodic table to properties of elements and bonds.
• Calculate amounts of chemical species using information from chemical formulas and chemical equations.
• Correlate information from balanced chemical equations to the microscopic scale.
• Explain atomic structure using the quantum mechanical model of the atom.
• Explain periodic trends using theories of electronic structure.
• Predict molecular properties and behavior based on molecular structure and bonding theories.
• Interpret thermochemical equations and data and evaluate energies of systems.
• Summarize the behaviors of gases and explain them using the kinetic-molecular theory.
• Correlate the molecular level process that occur during heating, cooling, and phase changes to the amount of energy removed or added to a system during each process.
• Apply the concepts of colligative properties to everyday life.
• Apply concepts of nuclear and radiochemistry to everyday life.
**Course Requirements & Grading**

\(^1\)Students earning below 60% in the laboratory component of the course will receive an F for the semester and will be required to repeat both the lecture and the laboratory component.

**Grade Dispute Policies**

Re-grades of midterm exams must be requested within one week of the date that the graded exams are returned to students.

Missing homework and TurningPoint (clicker) scores must be addressed, via email to carrie.shepler@chemistry.gatech.edu) within one week of the first date that scores are posted to Canvas. Announcements will be posted to Canvas when scores are posted.

Please refer to the laboratory syllabus for information regarding requests of regrades for lab reports and quizzes.

**Description of Graded Components**

**Exams**

_Three_ closed-book exams will be given during the semester on the dates listed below and in the lecture schedule. Exams contain multiple choice questions only, and no partial credit is awarded. Scantron cards will be provided.

**Exams, continued**

Exam content (in terms of textbook chapters and lecture slide numbers) will be outlined via a Canvas announcement the Friday prior to each exam. A list of applicable practice exam questions also will be provided. We do _not_ provide explicit study guides or topic lists, so you should make notes in class and as you study about topics you feel are most important.

One 8.5 x 11” crib sheet will be permitted for use on each of the three intermediate exams. Only one side of the crib sheet may be used, and _they must be in your own hand-writing_. **No photocopied material is permitted.** The inclusion of photocopied or material in another’s hand-writing will be considered academic integrity violations.

---

\(^1\)Students earning below 60% in the laboratory component of the course will receive an F for the semester and will be required to repeat both the lecture and the laboratory component.
**Final Exam**

A two hour and fifty minute, multiple choice final exam will be given at the time and place determined for this course by standard Georgia Tech procedures. The exam will consist of approximately 60 multiple choice questions, and no partial credit will be given. Scantron cards will be provided. The final exam is scheduled for **Wednesday, May 1st from 11:20am to 2:10pm.** The complete schedule of final exams may be found: [https://registrar.gatech.edu/files/201902%20Final%20Exam%20Matrix_0.pdf](https://registrar.gatech.edu/files/201902%20Final%20Exam%20Matrix_0.pdf)

Four crib sheets may be used for the final exam. These may be 8.5 x 11” in size with writing on only one side. **They must be in your own hand-writing. No photocopied material is permitted. All of your crib sheets will be collected with your final exam. You may not use photocopied material. No photocopied material is permitted. All of your crib sheets will be collected with your final exam. You may not take pictures of your crib sheets. You may not take pictures of your crib sheets. You may not take pictures of your crib sheets.**

**Grade Improvement Plan**

The final exam will be composed of four sections with the first three sections representing material from exams 1 – 3, respectively. The remaining section will cover material after exam 3. If you earn a higher score on a given section than you did on the corresponding exam, that percentage will replace the original score. For example, if a student earns a 75% on exam 1 and a 95% on section 1 of the final exam, the 95% will be used in the grade calculation. It is possible for all three original exam scores to be replaced with the Grade Improvement Plan. **You must have attempted the original individual exam or have an excused absence communicated to the course instructors to be eligible for the Grade Improvement Plan.**

**MasteringChemistry, In Class Group Work, Recitation and Exam Wrappers**

MasteringChemistry, in class group work, exam wrappers, and recitation comprise a total of 10% (100 points) of your overall course grade. **You need 140 points to earn the full 10%** and you may accumulate these points through various combinations of the four categories.

</tr>
</tbody>
</table>
• MasteringChemistry: There are 11 assignments valued at 12 points each for a total of 132 possible points. Each assignment has a due date. Individual extensions will be awarded only in cases of excused absences or disabilities accommodations, and both must be discussed with Professor Zhang and Dr. Carrie Shepler (carrie.shepler@chemistry.gatech.edu)

• In Class Group Work: Each clicker question asked in class is valued at 1 point for any answer and 2 points for a correct answer. There are no make-up opportunities. At the end of the semester, the points earned will be normalized to 30. For example: 
  If a total of 50 clicker questions are offered over the course of the semester, then there are 100 possible points. If you earn 75 of these points, you have 75/100 = 0.75 of the points possible. 0.75 x 30 = 22.5, and you have earned 22.5 points available in daily work.

• Recitation: Attendance and participation in recitation is worth 2 points per sessions.
  2 points = attendance for the full session with participation
  1 point = attendance with limited participation

• Exam Wrappers: After each exam, an Exam Wrapper assignment will be posted on Canvas after your exams are returned. These assignments are due the Friday after your exams are returned.

Laboratory
You must pass Laboratory to pass the overall course. Teaching assistants will have the responsibility for establishing laboratory grades. Students are graded on pre-lab quizzes, formal lab reports, summary reports, report accuracy, lab technique and safety and two laboratory quizzes/practicums. A grade of 60% or better in the lab is considered passing. If you fail CHEM 1310 lab, you must retake the entire lecture and lab. Your teaching assistant may specify that students work in pairs or in larger groups for certain experiments. Whether this is the case or not, all reports must be prepared independently by each student. Please see the lab syllabus for more details.

Grading Scale
Your final grade will be assigned as a letter grade according to the following scale:

A  90.0 – 100%   (900—1000 points)
B  80.0 – 89.9%  (800—900 points)
C  70.0 – 79.9%  (700—800 points)
D  60.0 – 69.9%  (600—700 points)
F  Less than 60.0% (less than 600 points)
  OR Less than a 60% in laboratory
Course Materials

Course Text
Chemistry, 7th edition by McMurry, Fay and Robinson
Available in hardcopy and as an ebook

Additional Materials/Resources
- MasteringChemistry Access Code
- CHEM 1211K/1212K Laboratory Manual, 2018-2019 edition (available only at the GT Barnes & Noble)
- Turning Point ResponseWare
- 100% cotton lab coat
- Composition notebook for use in laboratory

Course Website and Other Classroom Management Tools
Canvas
There are Canvas sites for both lecture and lab. All lecture materials, information, and grades (with the exception of those associated with recitation) are on the lecture site while all laboratory materials, information and grades are on the lab site. Be sure to select a deliver method for course announcements. You are responsible for all information posted in Canvas announcements. If you do not have Canvas set to email announcements to you, then you should check Canvas once daily.

Piazza
This term we will be using Piazza for class discussion. The system is highly catered to getting you help quickly and efficiently from classmates, the TA, and professors (I will respond to Piazza posts once daily during the work week). We encourage you to post your questions on Piazza. Please keep in mind general guidelines for civility as you post questions and responses. We intend the site to help build community within the class and are determined for it be a safe and inclusive space for all students in the course. You can access Piazza easily from the 1211K Canvas sites. If you have any problems, email team@piazza.com.

MasteringChemistry
Post-Lecture homework problems can be accessed directly from the Canvas link.

Course Expectations & Guidelines

Academic Integrity
Georgia Tech aims to cultivate a community based on trust, academic integrity, and honor. Students are expected to act according to the highest ethical standards. For information on Georgia Tech’s Academic Honor Code, please visit http://www.catalog.gatech.edu/policies/honor-code/ or http://www.catalog.gatech.edu/rules/18/. 
Any student suspected of cheating or plagiarizing on a quiz, exam, or assignment will be reported to the Office of Student Integrity, who will investigate the incident and identify the appropriate penalty for violations.

During anytime throughout the semester you have question involving the Academic Honor Code, please contact your instructor or a first-year program faculty member.

Accommodations for Students with Disabilities
If you are a student with learning needs that require special accommodation, contact the Office of Disability Services at (404)894-2563 or http://disabilityservices.gatech.edu/, as soon as possible, to make an appointment to discuss your special needs and to obtain an accommodations letter. Please inform Dr. Carrie Shepler (carrie.shepler@chemistry.gatech.edu, Clough 584A) and Dr. Michael Evans (michael.evans@chemistry.gatech.edu) within the first week of the course or as soon as possible after receiving your accommodations letter. We are dedicated to honoring your accommodations as best we can, and to facilitate that we required a brief in-person meeting with each student who has accommodations.

Attendance and/or Participation
The only components of CHEM 1211K with required attendance are laboratories and exams. Attendance in lecture and recitation is strongly encouraged, and points toward your course grade can be earned through attendance.

Collaboration & Group Work
You are encouraged to work with classmates on in-class problem solving and to study with others outside of class. Collaboration on homework assignments is acceptable, and you should keep in mind that the effort you put into these assignments will be reflected in what you gain from them. Discussion of the material in laboratory reports is appropriate; however, all work submitted in reports must be prepared independently.

Extensions, Late Assignments, & Re-Scheduled/Missed Exams
Comprehensive guidelines regarding class attendance and excused absences can be found in the Georgia Tech catalog. Please read through the policies in their entirety.
http://www.catalog.gatech.edu/rules/4/
http://www.catalog.gatech.edu/policies/student-absence-regulations/

Guideline summary (application primarily to exams and laboratories in CHEM 1211K):
You are permitted to miss an exam for Institute approved absences (varsity athletics, etc.) You should inform Dr. Shepler (carrie.shepler@chemistry.gatech.edu) as soon as you have your travel schedule so that we can make arrangements for you to take the exam at an alternate time.

If you miss an exam due to illness, then you should submit medical documentation to the Office of the Dean of Students. They will contact the course instructors, and we will work with you to determine the best course of action. Please also email Dr. Shepler
(carrie.shepler@chemistry.gatech.edu) as soon as you know you will miss or have missed an exam due to illness. You should not provide details regarding the illness.

Students may miss exams due to personal emergencies. Again, documentation of some sort should be provided to the Office of the Dean of Students who will communicate with course instructors. Please also email Dr. Shepler (carrie.shepler@chemistry.gatech.edu) as soon as you know you will miss or have missed an exam due to personal emergency.

Students who are absent because of participation in a particular religious observance will be permitted to make up the work missed during their absence with no late penalty, provided the student informs the course instructors of the absence, in writing, within the first two weeks of class, and provided that the student makes up the missed material within the time frame established by the course instructors. This also applies to exams.

You must contact Dr. Shepler (carrie.shepler@chemistry.gatech.edu) immediately if you miss an exam without an excused absence (as outlined above), and you may not be permitted a make-up or replaced grade.

Student-Faculty Expectations Agreement

At Georgia Tech we believe that it is important to strive for an atmosphere of mutual respect, acknowledgement, and responsibility between faculty members and the student body. See http://www.catalog.gatech.edu/rules/22/ for an articulation of some basic expectations that you can have of me and that I have of you. In the end, simple respect for knowledge, hard work, and cordial interactions will help build the environment we seek. Therefore, we encourage you to remain committed to the ideals of Georgia Tech while in this class.

We expect students to arrive prepared for class, to participate in class activities and discussions, and to utilize office hours for additional help when needed.

In return, students should expect instructors to arrive prepared for class, to engage them in activities and discussions that further their understanding of course material, and to be available during office hours.

Students should expect to spend 6-9 hours per week outside of the classroom and laboratory to excel in this course. This includes time spent reading the textbook, watching videos as assigned, working problems, and writing laboratory reports. Students are encouraged to develop a pattern of preparing for class, attending class, and then reviewing after each class period.

Student Use of Mobile Devices in the Classroom

All laptops, tablet computers, and phones are strictly forbidden during the lecture period, except during specific periods indicated for TurningPoint clicker questions. Exceptions will be made only for documented disabilities, following consultation with Professor Zhang.

Why? "A growing body of evidence shows that overall, college students learn less when they computers or tablets during lectures... Laptops distract from learning, both for users and for those around them."
Statement of Intent for Inclusivity
As members of the Georgia Tech community, we are committed to creating a learning environment in which all of our students feel safe and included. Because we are individuals with varying needs, we are reliant on your feedback to achieve this goal. To that end, we invite you to enter into dialogue with us about the things we can stop, start, and continue doing to make our classroom an environment in which you feel safe to participate in learning.
Campus Resources for Students
In your time at Georgia Tech, you may find yourself in need of support. Below you will find some resources to support you both as a student and as a person.

Academic support
- Center for Academic Success [http://success.gatech.edu](http://success.gatech.edu)
  - 1-to-1 tutoring [http://success.gatech.edu/1-1-tutoring](http://success.gatech.edu/1-1-tutoring)
  - Peer-Led Undergraduate Study (PLUS) [http://success.gatech.edu/tutoring/plus](http://success.gatech.edu/tutoring/plus)
- OMED: Educational Services [http://omed.gatech.edu/programs/academic-support](http://omed.gatech.edu/programs/academic-support)
  - Group study sessions and tutoring programs
- Communication Center [http://www.communicationcenter.gatech.edu](http://www.communicationcenter.gatech.edu)
  - Individualized help with writing and multimedia projects
- Academic advisors for your major [http://advising.gatech.edu/](http://advising.gatech.edu/)

Personal Support
Georgia Tech Resources
- The Office of the Dean of Students: [http://studentlife.gatech.edu/content/services](http://studentlife.gatech.edu/content/services); **404-894-6367**; Smithgall Student Services Building 2nd floor
- Counseling Center: [http://counseling.gatech.edu](http://counseling.gatech.edu); **404-894-2575**; Smithgall Student Services Building 2nd floor
  - Services include short-term individual counseling, group counseling, couples counseling, testing and assessment, referral services, and crisis intervention. Their website also includes links to state and national resources.
  - *Students in crisis may walk in during business hours (8am-5pm, Monday through Friday) or contact the counselor on call after hours at 404-894-2204.*
- Students’ Temporary Assistance and Resources (STAR): [http://studentlife.gatech.edu/content/need-help](http://studentlife.gatech.edu/content/need-help)
  - Can assist with interview clothing, food, and housing needs.
- Stamps Health Services: [https://health.gatech.edu](https://health.gatech.edu); **404-894-1420**
  - Primary care, pharmacy, women’s health, psychiatry, immunization and allergy, health promotion, and nutrition
- OMED: Educational Services: [http://www.omed.gatech.edu](http://www.omed.gatech.edu)
- Women’s Resource Center: [http://www.womenscenter.gatech.edu](http://www.womenscenter.gatech.edu); **404-385-0230**
- LGBTQIA Resource Center: [http://lgbtqia.gatech.edu/](http://lgbtqia.gatech.edu/); **404-385-2679**
- Veteran’s Resource Center: [http://veterans.gatech.edu/](http://veterans.gatech.edu/); **404-385-2067**
- Georgia Tech Police: **404-894-2500**

Homework Assessment:

1. Three (3) submissions will be allowed for each problem in the homework sets; you will receive 100% credit for a correct response on all three submissions except for multiple-choice problems. Homework is due at 8:00pm on the date indicated.

2. Each homework set is worth a total of 12 points. Eight of these points can be earned from the original homework set. If you earn a 95% or higher on the original homework set, you will automatically earn the remaining four points and will not be asked to complete the Follow-up homework set. Please note that you must attempt all questions to test out of the adaptive follow-up.

If you do not earn a 95% on the original homework set you will be given a Follow-up homework set where you can earn the additional four points.
